

Pottawattimie County I-680 Reconstruction Acceleration

Contractor Information Meeting

Missouri River flooding has forced the closure of I-680 from the Missouri River Bridge east to the junction of I-29. Restoring traffic to I-680 before winter shutdown is a priority of the Iowa DOT.

The Iowa DOT has scheduled a meeting to discuss our accelerated construction project to attempt to restore traffic to I-680 prior to Christmas. The meeting will be held on Wednesday, September 14, 2011 in the Iowa DOT District 1 Ames Garage conference room located on U.S. 30 just east of Interstate 35 at 10:00 AM. The meeting is being held to present the proposed project and to solicit ideas from contractors. Contractors who can't attend can obtain project documents and participate by telephone using the following connections:

Telephone – Dial: 1 (866) 685-1580
Enter Conference Code: **0009990955**

Documents will be available for preview at www.iowadot.gov Follow the link under "Featured Sites".

The current schedule is to have the plan and proposal available on Friday, September 15 with the letting being held on Wednesday, September 21.

Contract work will include grading, paving, pipe culverts and associated work. There are no bridges or box culverts included in the project.

Please contact the Office of Contracts at 515-239-1414 for questions about the meeting.
